English	Oak Academy Read Example Text – Reading Comprehension	Oak Academy SPAG Using pronouns in an adventure story	Book of Hopes ' Greatest Gift ' p. 253 to 255 by Maz Evans. Read it through and then write an acrostic poem using 'Greatest Gift' as your subject and line starter. There doesn't have to be a rhyming pattern.	Write your own instructions for making a photo frame, (see topic below). Remember to state what you need to do in a sensible order.	In the last paragraph, Maz Evans wrote 'Now we get the greatest gift, the gift that is your time'. What did she mean? Ask and adult at home if you can call, email or write to a relative or someone important to you that you really enjoy spending time with. Thank them and share this poem with them. Explain to them why the gift of their time is so important to you!

PSHCE	What is a random act of kindness ?	Here are some ideas for acts of kindness; some of these 50 can be adapted so scroll down! I am sure that with a specific person in mind, you can choose an act that would be totally appropriate.	You can always share your act if you wish to let me know.	How does it feel when you perform an act of kindness for someone else? Is it better to receive an act or perform one for someone else?	What is the message of this story ? This is one of my favourite quotes ever and challenges me every single day. Ask an adult what this means to them and talk to them about the difference that one person can make.

Topic	At Meadowside and in your homes, we try to reuse both sides of a piece of paper and then recycle paper as much as possible so that we cut down fewer trees! Have you ever wondered how paper is made ? It is possible to make your own paper at home . There are lots of other tutorials that show you how adults use equipment to make colourful paper.	Why not make your own wrapping paper by creating a simple repeating pattern . I couldn't believe how many different designs I could find on Pinterest and YouTube, I would love to see your final designs.		There are many ideas for making a photo frame on the internet, here is one . You may wish to adapt a different approach for ideas . You will need a photograph for your frame and it would be useful to either print out or use an existing one; I would measure the length and height of the photo before I started to make my frame to make sure it will fit.
